

Culture Marble Tomb (Qabar) Masalla

Size, Design as per Almuqadasa Bu Saheba Sahifa

Qabar consist of two portions:

1. Lower Plate form (Oatla)

Size: 4.5' L x 1.75' W x 1.75' H

It can be made at site by brick, mortar cement etc.

It is observed that height of Oatla varies at different places so it can be adjusted as per choice.

2. Masalla made up of Culture Marble (White Colour)

Size: 4.5-4' L x 1.5-1' W x 1.5' H

Upper and outer surface of Masalla is of gloss finish and inside of Masalla is hollow and has rough surface and its inside volume is about 150 liter.

Masalla is to be put on Oatla. Masalla has two openings on the upper top surface from which mortar or mud is filled to make it solid from inside. It has to be taken care that there is no air pocket remained inside. Mortar should be continuously pushed inside by some bar. The opening on the top should be closed by putting lid.
